

STRONGARM[®]

Stainless Steel

Industrial Mouse

Purpose-built for reliability and durability in demanding industrial environments and applications.

The world's greatest industrial mouse just got better!

Our next-generation Stainless Steel Industrial Mouse is purpose-built for reliability and durability in demanding industrial environments and applications. Constructed from high-grade 316 stainless steel, it's waterproof and resists corrosion and chemical exposure, ensuring reliable operation in harsh conditions. Whether ensuring sterility in pharmaceutical labs, maintaining hygiene in food processing plants, or braving the most rigorous manufacturing environments, it provides the robust performance and reliability that professionals demand.

- **Hygienic Design:** Fully sealed to meet IP67 standards, making it easy to clean and sanitize with industrial disinfectants
- **Enhanced Durability:** Built to withstand impact, vibration, and long-term wear, ideal for high-intensity environments
- **Precision Performance:** Advanced optical tracking technology ensures accurate and responsive control on various surfaces
- **Ergonomic Comfort:** Contoured design offers comfort for extended use without compromising ruggedness
- **Plug-and-Play Compatibility:** Easily integrates with existing systems via USB or PS/2

Industrial Mouse Specifications

NEMA Type	4/4X, IP67
Material	316 stainless steel exterior shell, Autotex XE overlay, ABS PA-757 base
Buttons	Two (2)
Power	5V @ 10 mA via USB
Temperature Rating	-40°F to +194°F (-40°C to +90°C)
Water/Humidity Resistance	Waterproof, submersible, 100% humidity resistant
Cable	USB, 8 ft.
Compatibility	Plug and Play
Shock/Vibration	IAW Mil-Std-202G
Shock Specification	50g 11 msec on 3 axes
Vibration PSD (Power Spectral Density)	.04g ² /Hz
Dimensions	2.9" W x 1.6" H x 4.9" D
